México, D.F., December 26, 2009.

To whom it concerns:

Greetings from our association PRO-NADO SINCRONIZADO, A.C., a non-profit organization. Our objective is to collaborate in the development and sports improvement of Mexico's National Selection in swimmers.

For 2010 the National Selections have commitments in the Pan-American and in the world championships, however, for them, the world economical crisis has left them out of the Mexican Swimming Federation's budget. The association was created suggested by Synchronized Swimming's vice-president, Teacher Norma Plata. Its purpose is to petition funds to make possible their participation in these international championships.

The sports experiences for these teams have been by far very satisfactory in the previous years. The family parents consider that we must try to obtain enough economic resources to achieve the participation of Mexico's National Selection. This is why we request sponsorship or support from you in the form of cash, equipment, or other forms of support.

The estimated budget for the three categories mentioned next is of \$2,500,000.00 (Two millions five hundred thousand Mexican pesos) that includes:

- ✓ Black swimsuit for figures in the competition.
- ✓ Training swimsuits
- ✓ Swimsuits of competition embroidered for single, duet, and team
